## EXPERIENCE SUMMARY

Worked as ASP .NET Developer for 10 months as Project Engineer in AngularJS , Entity Framework, LINQ, SQL Server, REST API Service calls and have good knowledge on the Code quality improvement in C# and Javascript coding.

## SKILL SET

Jun-2016 ▶ ADO.NET Entity Framework	11Month(s)	Jun-2016 ▶ LINQ - Language Integrated Query	11Month(s)
Jun-2016 ▶ AngularJS	11Month(s)	Jun-2016 ▶ Bootstrap	11Month(s)
Jun-2016 ▶ C# - CSharp-Programming	1Year(s)	Jun-2015 ▶ SQL Server	1Month(s)
Jun-2015 ▶ Web Services	1Month(s)	Jun-2015 ▶ ASP.NET MVC 4	1Month(s)
Jun-2015 ▶ Stored Procedures	1Month(s)		

## TRAINED SKILLS

## DOMAIN

Jun-2016 ▶ TECHNOLOGY	10Month(s)	Jun-2015 ▶ TRAINING	1Month(s)
-----------------------	------------	---------------------	-----------

## WORK EXPERIENCE

Total Experience - 00 years and 11 months

### 20-07-2015 - 03-06-2016 (PSP-MIC-PJ-EPRSMSCONNECT)

**Role:** DEVELOPER-L1

**Domain:** TECHNOLOGY

**Team Size:** 10

**Project Environment:** .NET Developer

Skills	Duration
C# - CSharp-Programming	11Month(s)
ADO.NET Entity Framework	11Month(s)
LINQ - Language Integrated Query	11Month(s)
AngularJS	11Month(s)
Bootstrap	11Month(s)

**Description:**

**Material Distribution Feedback (MDF):**

MDF is a gateway allowing users to provide feedback on beta products as well as the released products. This brings the ability to sync users feedback directly into Product Groups preferred bug tracking system like Product Studio / TFS and engage the users actively to improve the overall product release quality.

**Responsibility:**

As it is a Agile Development Project with user stories for each sprint, I am responsible for :

1. 1. User story analysis
2. 2. Task preparation
3. 3. Implementation of user story
4. 4. Code reviews
5. 5. Writing Unit Tests
6. 6. Attending daily scrum calls
7. 7. Presenting work in front of customer

**26-05-2015 - 19-06-2015 (REAL LIFE LAB)**

**Role:** DEVELOPER - L1

**Domain:** TRAINING

**Team Size:** 2

Skills	Duration
SQL Server	1Month(s)
C# - CSharp-Programming	1Month(s)
Web Services	1Month(s)
ASP.NET MVC 4	1Month(s)
Stored Procedures	1Month(s)

**Description:**

I have worked on the "ONLINE HOTEL MANAGEMENT SYSTEM" application case study in the Real Life Lab. This application has two users Admin and Customer(End user). The functions of various users are: Admin: 1. Adding Rooms/Menu 2. Approving Room Booking/Menu Ordering 3. Modifying Room Details/Menu items 4. Deleting Menu items. User: 1. View Room Details 2. Room Booking, 3. Place Menu Order, 4. Check Status of Room Booking/Menu Order, 5. Make Payment

**Responsibility:**

Implementation of Detail design, Jobs using SQL Server 2008, ASP.Net and ADO.Net, MVC in the IDE Visual studio 2012. Developed the unit test cases and demonstrated the application as a Part of Release.

**EDUCATION DETAILS**
